Infinity Classic Corrosion-Proof Construction

The Infinity Classic is virtually maintenance free and built to last as long as you own your home! It is constructed using heavy duty commercial grade extruded aluminum stiles and rails. Framing members are mechanically fastened at joints creating an exceptionally high strength door frame. A precisely engineered Tongue and Groove (T&G) joint with a compressible gasket is incorporated at meeting rails. Framing members and aluminum panels have a (EPS) polystyrene core for thermal and acoustic advantages. Single pane clear tempered glass is standard. Several other glass types are available.

The Infinity Classic comes with a standard white Polycron III finish. Optional wood grain and solid color powder coat finishes are available. Northwest Door offers a vast selection of designs including arched windows and custom designs.

Specifications

- Frame: 2" thick, 6063-T5 extruded aluminum with EPS polystyrene core. (Average insulation value R 5.6 with insulated thermo pane windows)
- Panels: .050" thick aluminum each side of a 1/2" EPS polystyrene core, sandwiched. (Optional "VG" v-groove insulated panels available)
- Windows: Simulated true divided lites, straight or arched. (Optional custom arched windows can be made to match your door opening)
- Glass: 1/8" single pane clear tempered glass. (Optional thermo pane insulated, tinted and obscure glass - page 11)
- Sections Joints: Tongue and Groove type with compressible gasket.
- Bottom Seal: Flexible loop type vinyl.
- Finish: White Polycron III. (Optional "WG" wood grain powder coat and solid color painted finishes - page 4)
- Hardware: Galvanized standard lift torsion hardware, 15" radius, 2" bracket mounted track, 10,000 cycle springs, 14 gauge hinges, 2" nylon ball bearing rollers. Doors over 12' wide or 156 sq. ft. receive double end hinges and long stem rollers, doors exceeding 575 lbs. receive 3" angle mounted track, doors exceeding 750 lbs. receive solid keyed shaft. (Optional high lift, low clearance and high cycle options - page 11, solid color powder coat finishes - page 4)
- Warranty: Limited Lifetime Warranty on door, One Year Warranty on hardware. (When used on residential applications)

Designs

Infinity Classic doors are available in one inch increments up to *24 ft. wide and 16 ft. high, with a maximum total door size of 336 sq. ft. Doors up to 8 ft. in height are made using only three sections, which provides an authentic replication of original carriage house style doors. 33 1/4 in. is our maximum section height. *Note: (24 ft. wide available in white only, other colors available to 22 ft. wide)

Extruded aluminum designs and mullion overlays are adhered to the door. They can be configured to create many carriage style designs. We offer seven base designs, seven standard window patterns, and six arched window patterns. Our standard arch is 15'-0" radius on both single car and double car doors. A 58'-0" radius arch is also available on double car doors. Optional custom arches can be made to match your exact door opening arch or angles when a template is provided. Aluminum trim is applied to the inside surface of the glass to match the pattern on the exterior. Please contact your Northwest Door Dealer for more information about custom arches.

Custom Designs

I116C VG Custom

Our all aluminum Infinity Classic garage doors can be created with your home or structure's architecture in mind. Custom designs can be created, including custom section heights and windows in both the intermediate and top sections.

The door at right has 4 sections. Each section was made a different height to achieve the desired proportions. The two upper sections contain customized 8-lite windows with the top window section having a custom arch. The lower sections contain v-groove panels. This I116C custom door has a Walnut wood grain powder coat finish.

Scaled dimensioned drawings are available upon request for all custom and standard Infinity Classic designs.

Optional Wood Grain Powder Coat Finishes

Model I206C WG Dark Cherry

Infinity Classic is available in a high performance state-of-the-art wood grain finish. Our doors look so realistic and natural that they are mistaken for real wood doors. The wood finish is a powder coat process, an excellent performer in coastal regions and where corrosion is present. All door surfaces are finished so the door is as beautiful on the inside as the outside.

Powder Coated Hardware

To further enhance the beauty of your door's interior, we offer optional powder coated track and operational hardware in five solid colors: Black, Red, Grey, White and Brown.

Dark Walnut, Black Powder Coat Hardware

*Note: Wood grains and solid colors will vary due to the printing process, these representations are not an exact match with actual product.

Stamped Steel, Crinkle Textured
Black Powder Coat Finish

Decorative Handles and Hinges

Decorative Handles Only

High Value Hardware Options

- 12" Radius, Low Headroom, Follow Roof Line, High Lift and Vertical Lift Hardware System
- Heavy Duty Continuous and Reverse Angle Mounted Track
- 3" Industrial Duty Galvanized Track, 3" Ball Bearing Rollers (Standard on all doors exceeding 575#)
- Double End Hinges, Long Stem Ball Bearing Nylon Rollers (Standard on doors 12' wide and larger)
- 11 Gauge Galvanized Hinges
- 25,000 High Cycle Extended Life Torsion Springs

High Value Hardware Options

Northwest Door can custom manufacture sloped bottom sections or sloped trailer sections to fit an angular slope of the garage floor at the entryway. Limitations to size and finishes do apply. Please contact your Northwest Door Dealer for more detailed information.

Sloped Bottom Section

Sloped Trailer Section

Note: The bottom of the door will typically hang down below the header, so full opening height clearance cannot be achieved.

Garage Door Replacement, A Great Investment!

Garage doors can cover about 1/3 of the front of the average home. By replacing old worn out garage doors it will improve your home's curb appeal and can substantially increase its resale value.

According to *Remodeling Magazine's Cost vs. Value Annual Reports*, year after year, a garage door replacement with upscale garage doors have continued to be one of the highest ROI's (*Return on Investment*) of all exterior remodeling projects.

Model I206S, Field Painted By Others

Warranty:

Infinity Classic garage doors are a time-tested product. They are virtually maintenance free and extremely durable. These all-aluminum garage doors are crafted using only the finest materials available and feature Northwest Door's Limited Lifetime Warranty. Ask your door dealer for complete warranty details or visit our website at NorthwestDoor.com. **WARNING: Any adjustments to your door should be made by an experienced garage door installer, such as your Northwest Door Dealer. Serious injury can result from improper adjustments to your door.**

Garage Door Openers

Garage Door Openers are a recommended option. They are convenient and will extend the life of your garage door. The LiftMaster® Model 8500 wall mount residential opener is extremely quiet and features MyQ® technology, compatible with HomeLink®.

On larger sized Modern Classic doors we recommend the LiftMaster® 3/4 H/P Model 8587W. The Model 8587W is more powerful and also features MyQ® technology.

Visit NorthwestDoor.com to see the complete line of LiftMaster® garage door openers or ask your Northwest Door Dealer for more information.
